

Laundry | A touch of style

Oliveri's laundry tubs are available in 45 or 70 litre capacity and feature an aesthetic low-profile rim for a near seamless fit on your benchtop. Designed to accommodate modern mixer taps, they are also available with rinse bypass fittings and even overflow devices to eliminate possible flooding. The Oliveri laundry range also offers additional laundry sink alternatives to add a touch of style to any laundry.

T145S TUB SHOWN WITH OPTIONAL **NW7310** MIXER TAP

Overflow option

An overflow option can safeguard against accidental over filling and flooding. It is discretely located high on the bowl wall to maximize capacity.

Bypass Plumbing

TI series tubs are available with bypass plumbing to allow washing machine grey water to enter the drain even while the tub is in use.
